

33. A communication apparatus according to claim 32, wherein said receiver receives said first coded data and said second coded data that are packetized in a same packet when said first coded data and said second coded data are received.

34. A communication apparatus according to claim 32, wherein said receiver receives said first coded data and said second coded data without connecting a new call.

*Aff
CMB*

35. A communication apparatus according to claim 32, wherein said controller does not select audio signals outputted from said second decoder until a predetermined time has passed since said second decoder starts decoding said second coded data.

36. A communication apparatus according to claim 32, wherein said first coded data includes video signals coded by using said first coding method while said second coded data includes video signals coded by using said second coding method.--

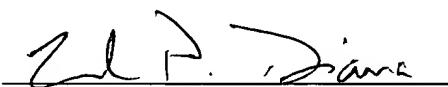

REMARKS

Claims 1-36 are now pending in this application. Claims 1, 5, 7, 11, 13, 17, 19, and 23 have been amended to even further clarify the claimed subject matter. Claims 25-36 have been added to provide Applicant with a more complete scope of protection. Claims 1, 7, 13, 19, 25, and 31 are in independent form.

Favorable consideration and early passage to issue of the present application
are respectfully requested.

Applicant's undersigned attorney may be reached in our New York office by
telephone at (212) 218-2100. All correspondence should continue to be directed to our
below listed address.

Respectfully submitted,

Attorney for Applicant
